

Wireless Smoke/Heat Detectors

Honeywell

The Ultimate Protection

Critical to your family's safety, Honeywell's wireless smoke and heat detectors provide the ultimate protection of life and property. They mount on walls or ceilings, install without drilling holes and preserve the beauty of your home while protecting it.

- Attractive, low-profile units blend with any décor
- Green LED status indicator for normal conditions—providing an added level of security and facilitating easier troubleshooting
- Maintenance reporting automatically alerts the central station when service is needed
- Heat detector combines both rate-of-rise and fixed temperature sensors in one unit
 - Provides valuable, added protection in areas such as kitchens
 - Monitors temperature and prevents inadvertent false alarms that could be caused by smoke while cooking
 - Signals an alarm only when ambient temperature increases 15° F per minute and/or if it raises above 135°F (57° C)

Honeywell's wireless smoke and heat detectors are monitored by the central station 24 hours, seven days a week—providing you and your family with round-the-clock protection and the peace of mind you deserve.
