

Pro-Watch® 4.1

SECURITY MANAGEMENT

**Choose Open.
Choose Pro-Watch.**

Honeywell

Pro-Watch®

Your Choice for Security.

For more than two decades, Honeywell's Pro-Watch® security management suite has been chosen by Fortune 100 and Fortune 1000 companies worldwide to protect people, property and assets by combining visitor management, access control, IP video surveillance and intrusion into one powerful system.

It's a simple choice. **Choose Pro-Watch** and make Honeywell your partner in security.

Open Platform

Effortless integration with disparate and third-party systems — resulting in cost savings and increased operational efficiencies.

- Drives energy savings through a more efficient use of HVAC and building management systems, enabling a real return on investment
- Gives you the freedom to create custom-fit solutions using simple tools like the Pro-Watch Integration Kit—saving you time and money
- Integrates seamlessly to visitor management, mass notification and other systems for tighter security

Supports Mercury Standard Protocol

Integrating with Mercury-based systems eliminates the need to replace existing Mercury based systems, delivering a cost-effective transition path.

- Provides a drop-in replacement for CASI-Rusco Micro/5 Boards, leveraging end-user's investments in existing readers and wiring
- No need to replace and rewire access control hardware
- No need for new access credentials
- Provides a lower cost migration path for legacy and third-party end users

True Open Platform for Maximum Flexibility

Designed with an open platform that offers integration, scale and flexibility, Pro-Watch 4.1 delivers the ideal blend of versatility and cost-effective performance. From seamless integration with Vindicator's high security intrusion detection to support for disconnected readers that provide more flexibility, Pro-Watch 4.1 packages all the functions you need into one powerful system.

To learn more about the new features and functionality of Pro-Watch 4.1, download the datasheet at www.honeywellintegrated.com.

Vindicator® Intrusion Detection

Integration with Vindicator provides a single interface for access control, video surveillance and perimeter protection.

- Offers “layered security” for advanced notification of threat situations
- Drives seamless integration to any third-party system
- Uses embedded software to guarantee minimal system downtime and instant notification of intrusion alarms
- Scalable to meet any application

SALTO Disconnected Readers

More installation flexibility for previously hard-to-wire applications.

- Increases opportunity for more installations, resulting in tighter security
- Effective access control solution for remote locations. No wiring required
- Supports both SALTO and IR Schlage disconnected/wireless readers, increasing application flexibility

We support open standards and architecture through our Honeywell Open Technology Alliance (HOTA). HOTA enables open exchange of technology between security and IT manufacturers—maximizing an end-user's

investment in existing security technology. Honeywell is also a contributing member of ONVIF and PSIA.
