revive your security

Transform your legacy security system to an affordable, end-to-end enterprise solution.

Bring your obsolete system back to life with Honeywell's M-5 Conversion – a simple board replacement option within Pro-Watch® that supports Mercury's M-5 Series Control Modules.

So, what's the big deal? The M-5 Conversion drop-in replacement saves you money while providing added features. Not only does it help you leverage your current investments in existing readers and wiring by allowing you to continue using your own equipment, it also provides an instant upgrade to Pro-Watch — Honeywell's robust, state-of-the-art integrated security system.

The M-5 is non-proprietary, allowing for open integration and more flexibility. It's easy. It's affordable. And it's just what the doctor ordered.
